MEMORANDUM FOR: Deputy Director of Central Intelligence [redacted]

FROM : Special Assistant to the Director for  
Interdepartmental AffairsSUBJECT : Symposium Presentation on Soviet C<sup>3</sup>I

1. Per your request, SOVA has retyped your symposium presentation on C<sup>3</sup>I for Warfighting, using the speech ball and eliminating the paragraph designations. I hope that this is satisfactory for any future use you might wish to make of this presentation.

2. Regarding submission of your text for publication, the DDI took another look to check for sources and methods. The last sentence of the first full paragraph on page 5 was sanitized to protect some NSA-originated material. With that change Bob Gates and [redacted] have no hesitation about releasing the presentation at the Secret level to a wide military-industrial audience. [redacted] people, therefore, will prepare it next week in the proper format at the request of the NSIA.
